The European Society of Intensive Care Medicine (ESICM) is delighted to organise this Summer Conference with the title “Perioperative Management-State of the Art”. The conference is endorsed by MAITT, the Hungarian Society of Anaesthesiology and Intensive Therapy.

Advanced monitoring and supportive therapy has changed our approach to perioperative care over the last 25 years. These changes may have improved outcome in certain scenarios, but they have also brought new challenges, urging the need for an even better and more efficient care. There are still a lot of controversial issues worth discussing, and this is exactly what we aim to do on this meeting. Do we really have a measurable impact of outcome? Are perioperative interventions, such as hemodynamic support, mode of mechanical ventilation, and infection control able to reduce postoperative complications? Does the better understanding of the biochemical background of critical illness, delirium, clotting disorders have any effect on postoperative recovery? Do organisational issues matter in this context?

These are the questions we will address and would like to discuss with you on this Summer Conference, by the river Danube in one of the most spectacular capitals of Europe, Budapest. As Hungary is holding the presidency of the European Union this year, social events will be in abundance during this time of the year, so keeping you indoor won't be easy...

So, please come and enjoy the hot topics, the hot weather, the Hungarian hospitality, the superb food, the wine and let us welcome you with our traditional “pálinka” on the opening ceremony of this Summer Conference in Budapest!

- Perioperative haemodynamics
- Postoperative infections
- Perioperative interventions
- Cellular, biochemical aspects of surgery
- Postoperative complications

CONTINUING MEDICAL EDUCATION/ EACCME

This Summer Conference is accredited by the European Accreditation Council for Continuing Medical Education (EACCME) to provide CME activity for medical specialists. The EACCME is an institution of the European Union of Medical Specialists (UEMS – www.uems.be).

The EACCME has granted **9 European CME credits (ECMEC)** to Budapest Summer Conference.

EACCME credits are recognized by the American Medical Association towards the Physician's Recognition Award (PRA). To convert EACCME credit to AMA PRA Category 1 credit, contact the AMA (www.ama-assn.org).

ESICM DECLARATION OF POTENTIAL CONFLICT OF INTERESTS

The Society wishes to ensure that all those who participate in the Society's professional, administrative, scientific and educational activities, including speakers and chairpersons at the Summer Conference, have the opportunity to declare any interests they may have which could influence, or might be perceived to influence, their judgment or behavior.

Competing interests may arise from academic, financial, or professional activities and ambitions. These are inevitable, and in many instances do not adversely affect behavior. Similarly, research and educational relationships with industry are desirable and essential for progress in health care. However, these tensions and relationships provide opportunities for abuse and inappropriate influence.
