Section Meeting
Acute Kidney Injury

Tuesday 4 October 201
MiCO-Milan, Milano, Italy

07.30-08.00 hrs
Room BM2

Agenda:

1) Welcome to Eric & Marlies!
2) Training Interface
3) ESICM LIVES 2017: Programme Planning Progress
4) ESICM LIVES 2017 PG Course
5) Prevention of AKI Guidelines update
6) Research Update: PEACE & Clinical Trials Group
7) Research Projects: Collaborative studies
8) AOB

Lui G Forni  Michael Joannidis
Section Chair  Section Deputy
Present:
Lui Forni (LF) : Chair; Michael Joannidis (MJ) Co-Chair; Marlies Ostermann (MO), John Prowle (JP), Eric Hoste (EH), Carole Ichai, Michael Pinsky (MP), Oliver Joannes-Bayou, Miet Schetz, Antoine Schneider, Anne-Cornelie De Pont, Wilfred Druml, Matthieu LeGrand, Thomas Rimmele, Max Bell, Ville Petilla, Catherine Bouman, Heleen Oudemans Von Straaten, Bernd Kurz, Maaike Silima, Marjel van dam, Ilona Bobak, Andrea Lassnigg, Jakob Smiechowicz, Giovanni Landoni, Rohani DuPont, Rui Pereira, Maria Deja, Michael Darmon, Herbert Spapen, Jenny Skytte Larsson.

ESICM Lives 2016:
Programme details were discussed. The section is well represented this year with 2 new speakers invited as faculty this year. This was discussed at length and it was felt that the introduction of one new speaker each year would be an aspiration which we could achieve especially if the PG course were to continue.

Action: None

ESICM LIVES 2017: Programme Planning Progress
This was briefly discussed as only one meeting has taken place. It is hoped that the AKI section will continue to flourish!

Action: EH as new section chair.

ESICM LIVES 2017: Postgraduate Course
This was discussed. Currently the course runs well with excellent feedback as evidenced by the course being rated as good or excellent by 90% of attendees with all attendees stating they would recommend the course to colleagues. The main criticisms were time management and some would have preferred more focus on AKI complicating certain disease states (this was covered in the main congress) or more case based discussion in small groups. However it was felt that perhaps the course could be ‘revamped’ and that this could be on the basis of case based discussions perhaps in groups lead by experts at times during the day. It was discussed as to where such cases may be generated. It was felt that this could be either through section members or by delegates. The idea of a case database was raised which could be accessed by section members. MP informed us that in Pittsburgh a similar process was in place.
**Prevention of AKI Guidelines update**

Michael Joannidis (MJ) presented the current state of play. The revised manuscript as it stands will need revamping over the next few weeks with the view to submit for the January issue of ICM dedicated to AKI.

**Action : MJ/LF.**

**Research Update**

PEACE results were described by EH. The problems with the website were outlined and the decision was to send out an e-mail to centres to discover who still had data to enter. If any were identified these data could be incorporated into the current results which describe prospectively approaching 450 AKI 2/3 patients: the largest cohort to date. The ESICM trials group award was also discussed which was awarded to an AKI project (Alex Zarbock). LF outlined that there were 12 applications (from a potential 36) and that the application did address the remit specifically. It is hoped that the section will again be active in this regard and that protocols could be worked on early for the next occasion.

**Action : LF and All members**

**e-Learning Platform**

This was outlined by the e-learning team. In brief the society expects the sections to provide the material based on the PACT modules. John Prowle asked whether this would then be matched to the EDIC curriculum and it was agreed that this should be the case. LF also asked whether there was the potential for graphics help in particular with regard to educational videos. The following was decided:

1) The PACT modules should be broken down into smaller parts. Perhaps 10 sections.

2) These should be then allotted to teams of 2: a junior and senior author not necessarily from the same institution. In terms of updating the modules this would be the role of the junior partner.

3) These will be allocated within the next month or so.

4) All authors would be listed as such and this would be integral to any publication policy.
Action: LF/MJ Initially then all.

AOB:

LF introduced EH and MO as the new section chair and deputy starting from the congress senate. He added that he was sure that they would do a fantastic job. EH thanked MJ and LF for there work over the last 3 years in furthering the section aims and development.

Next Meeting: Brussels March 2017
