A. Standard Operating Procedures and Operating Instructions

1. ESICM Standard Operating Procedures

The ESICM has been evolving as a society since its foundation. The development and growth of the Society has been accompanied by the need for several changes in the structure of the society, which have been realised over the past years.

These changes also implicate on the statutes and rules of the society. The fact that the ESICM has become an economically acting body provides also the rationale to divide between the statutes – which form the framework for any activities within the society - and further operating instructions. The latter needs to be more flexible and updated as frequently as necessary.

This document contains thus the general Standard Operating Procedures as defined in the ESICM Statutes. It contains:

- Additional information to the Statutes of the ESICM
- Internal Operating Instructions: they describe in detail all the necessary information for the daily work in the society, including description of committees, positions and procedures.

2. Modifications and Addenda

Changes to this document can only be done through a formal process:

- ESICM officers (see the list below) can suggest changes or modifications to this document, using a formal written proposal to the ESICM Secretary.
- The Secretary proofs the proposal with respect to form and content and submits the proposal to the Executive Committee.
- The document has to be reviewed by all voting Executive Committee members for formal and contextual quality.
- The document has to be reviewed by the Chief Executive Officer, whose feedback should be discussed in the Executive Committee.
- The Executive Committee has to decide by majority vote about submitting a recommendation to the Council.
- The Executive Committee presents at one of the two annual Council meetings. Submission to Council should occur two weeks before the Council meeting. The Council will vote with simple majority about acceptance or rejection of the proposal.
- The ESICM President is responsible for the release of the document.
- The ESICM President is responsible for the implementation of the SOPs.

- ESICM officers are:
  - The President
  - The President Elect
  - The Secretary
  - The Treasurer
  - Chairpersons and deputies of Divisions, Committees and Sections.
  - The Chief Executive Officer
  - Other Council members

3. Discontinuation of this document

This document and the inherent instructions can only be discontinued through changes to the ESICM Statutes by majority vote of the General Assembly.

4. Operating Instructions

Besides the general SOPs, there is a need for other Operating Instructions, in order to handle several internal processes.

- Any ESICM officer (see list above) or the Chief Executive Officer can suggest new Operating Instructions or modifications to existing ones, using a formal written proposal to the ESICM secretary.
- The Secretary proofs the proposal with respect to form and content.
- If the proposal is adequate, the Secretary submits the proposal to the Executive Committee.
The document has to be reviewed by one additional Executive Committee member for formal and contextual quality.

The ESICM President is responsible for the release of the document.

The ESICM Secretary is responsible for the implementation of these Operating Instructions.

B. Addenda to the ESICM Statutes

Each member may belong to several sections, but may vote only in one. This selection will be indicated annually in conjunction with the membership renewal.

If the membership of a Section falls below 25 for one year it will be communicated to members and if two consecutive years, it shall cease to exist. The purpose of this is to guarantee representation from the main interests of the membership in the Society’s Division of Scientific Affairs, and at the same time respond to the potential shifts in the areas of interest; i.e. if the activity of any Section declines substantially; it will not continue to be automatically represented in the Division of Scientific Affairs, or in the Council.

• The Section Chairperson reports to the section members about all the activities of the section. If a section or working group fails to report its activities for two consecutive meetings, the possible discontinuation of the section or working group will be discussed by the EC.
• The Section Deputy reports to the Section Members about activities in the Research Committee.
• The Section Chairperson reports to the Council about section affairs.

3.2. Working Groups
1. Purpose
The main task of WGs is to facilitate collaboration on specific projects within their field of expertise.

2. Composition

Each Section Member may belong to several WGs.

3. Creation
For new WGs, a proposal should be made to the Chairman of the Section, supported by a minimum of 5 ESICM Ordinary and International members, who are willing to join the new Working Group. This proposal will then be presented to the Section members. The Section will then decide, either per written vote (fax, letter or email) or in the next Section meeting.

After approval by the Section, the name(s) of the WGs will be submitted to the ESICM Division of Scientific Affairs and communicated to the ESICM office.

It is also possible to create cross-sectional working groups. Proposals for the creation of such working groups should be submitted to the Chair of the Division of Scientific Affairs. Cross-sectional working groups should have representative in more than one ESICM Section, to ensure adequate coordination of activities and dissemination of knowledge in these sections.

Each WG will nominate (in case of one candidate) or elect (in case of more candidates) a Head. The term of the Head of the WG is three years, renewable once.

4. Duties
• It is the duty of the WGs to help the Chairman of the Section to maintain an appropriate body of abstract reviewers for the ESICM Annual Congresses.
• Each WG may propose, each year, thematic sessions for the Annual Congress, derived from their specific work.
• WGs may request a meeting room during the Annual Congress and during other meetings where ESICM meetings take place. The results of these WG meetings have to be reported formally to the Section within two weeks.
• WGs do not represent their parent Sections.
• WGs should inform the Chairman of their own Section when they develop collaborations with other Sections or WGs to avoid competition or duplication of effort on similar issues. Collaboration with other associations should be reported as well.
• Research projects originating from WGs should apply for ECCRN endorsement, completing the ECCRN conditions for endorsement.

5. Reporting relationships

• If an ESICM Officer is unable to fulfill his position he/she should inform the ESICM President.
• In cases where this is not possible or not carried out, the ESICM President decides about further procedure.
• Failure of meeting attendance.

Failure of any elected member (Executive Committee, Council member, Section head or deputy head or Subcommittee member) to attend two CONSECUTIVE meetings should be notified to the President by the chair for this meeting.
The elected member and President will need to discuss attendance and agree on a plan. Failure to attend three consecutive meetings will result in automatic removal from office, unless either prior agreement has been obtained by the elected member from the President, or if circumstances are agreed by both the chair and the President to be entirely out of the control of the elected member.

In any case
- The ESICM President may nominate another ESICM officer to temporarily replace the dismissed officer
- The Executive Committee must be informed about this decision
- Within a period of 14 days it must be decided by majority vote within the Executive Committee if:
  - The designated person holds this position until the next scheduled elections for this position or
  - If the vacant position needs to be officially announced and another officer has to be elected as soon as possible. In this case, elections immediately follow the decision.

- Deadlines might be changed by decision of the Executive Committee.
- All ESICM members successfully elected into representative positions (including Executive Committee, Council members, section heads and deputies and sub-committee members, etc) must complete a Conflict of Interest form and update this annually. This is good practice and is for the elected member’s own benefit and for the benefit of the ESICM membership as a whole.
  - Conflict of Interest forms should be completed by the member upon successful election to a post and submitted to the Brussels office for review by the Secretary and President. The Brussels office will remind all elected members to update their conflict of interest forms annually. The Secretary and the President of the Society will review these annually.
  - Members will be reminded immediately after the Annual Congress.

5.2. Election process

Dates for the election
- The dates for the election are suggested by the ESICM Secretary and are decided on by the Executive Committee.
- For given reasons (e.g. holiday, office problems, extension of the call for candidates, etc.) the ESICM Secretary can change the dates. In this case the Executive Committee must be informed.

Call for candidates
- The call for candidates is announced through the ESICM Membership Department on request from the ESICM Secretary.
- All ESICM members (paid or unpaid membership fee for the current year) have to receive an email which gives the following information:
  - Open positions
  - Job descriptions, including prerequisites to stand as candidate.
  - Application form
  - Deadline for the submission of candidates’ proposals
- If, after the first call of candidates, one or more positions remain open, the call might be extended by the ESICM Secretary.

• The presentation of candidates should be ready latest for the opening of the ballot.

Ballot
• The ballot starts after the above mentioned steps have been achieved.
• The duration of the ballot can vary, depending on the election. It should, however, leave enough time, so that all members who can vote for a given ballot have the possibility to do so.

Presentation as a Candidate
• Potential candidates must fill in the Application form and send it to the office prior to the set deadline.
• Candidates are responsible to read and understand both the prerequisites to stand and the job descriptions.
• In order to stand, candidates must pay their membership fee for the current year prior to submission of the proposal. A member can only apply and stand for one open position.
• Candidates are eligible to stand for election if they are an Ordinary member of the Society and spend 50% full time equivalent, or more, of their appointment in Europe.

Results
• After the ballot closes, the ESICM membership staffer reports on the results to the ESICM Secretary.

5.3. Hand over of mandates

Background
The European Society has various positions to cover where officers are elected from the membership. The mandate for these positions varies between two years (President, President Elect) and three years (all others).

It is important that the transition between the different mandate holders occurs in a smooth fashion and with no loss of function, in order for the Society to operate on the highest possible level. Apart from the President Elect, who has a two-year mandate, no other position has such a transition function built in.

To apply for a new position within the Society, any elected candidate must have fulfilled two thirds of his/her current mandate before the start of the new mandate. It is not possible to hold two simultaneous positions within the Society.

Mandatory Elect
• In the period between election and start of the mandate, each elected representative has the status of a "Mandatory Elect" (ME).
• The transition period is defined as the time from confirmation of election result through to the official handover of posts at the General Assembly.

Rights and Duties of Mandataries Elect
• The ME has the right to participate in any meetings of his/her specific committee which occur in the transition period.
• The ME has the right and the duty to ask and to obtain specific information, necessary for the processing of his/her mandate. He/she should thus be added to the mailing list of his/her specific committee. This right is valid for the whole of the transition period.
• MEs are allowed to participate in ongoing discussions and to express their opinions during the transition period.
• MEs are not allowed to deliver any formal vote.

Rights and Duties of Incumbent Post-holder

7.1. Rules of Travel Reimbursement

The ESICM Executive Committee has made the decision to reduce the impact of the travel and accommodation costs on the finances of the Society. The following rules are valid for AUTHORIZED travellers who travel on behalf of ESICM, authorised in advance by the Chief Executive Officer/Treasurer. This is travel at the request of the Executive Committee members, to the Brussels Office, or to any other place, including the ESICM Officers.

Eligible for reimbursement by ESICM are:

- Flight costs (economy class)
- Train costs (economy class)
- Car costs (current official Belgian rate of the year)
- Taxi service costs exclusively from home-airport-home and from airport-hotel-airport for an acceptable amount. Long drive costs must be part of the travel costs.
- Taxi costs home-airport-home can be replaced by private car parking costs at the airport at reasonable tariffs
- Accommodation at an acceptable, reasonable rate, bed and breakfast only
- Lunches or dinners, only if related to ESICM business.
- Internet connection if related to ESICM business

The Executive Committee and the Chief Executive Officer may use business class for long haul flights (transatlantic flights and those of 6 or more hours). If ESICM officers are travelling on behalf of the ESICM and in the interest of the Society, they should have the prior approval of the Chief Executive Officer and Treasurer for using business class.

If, because of extenuating circumstances, the present guidelines are not adequate to cover an individual's expenses (in case they go over the present maximum), they should send a written request to the Treasurer explaining why they should be allowed to exceed the set ESICM limits and the Treasurer will accept, or reject, the request. A possible example might be an ESICM meeting set up at short notice when a coach ticket could not be obtained for less than 500 Euros.

Methods

- Reimbursement will be required using the Reimbursement Form provided by the ESICM Accounting Department. This document must be filled in completely including the requested bank data.
- The form must be sent to the Brussels Office Accounting Department by regular post, with the original proofs, receipts and boarding passes attached, within two months after the event. All non-eligible amounts will be deducted.
- Reimbursement will be made by bank transfer as soon as possible.
- The ESICM Treasurer will make a final decision if any dispute arises.
