

## ESICM TEM Section meeting

Tuesday March 21<sup>st</sup> 2023 12:30-13:30

Present: Markus Skrifvars, Jerry Nolan, Claudio Sandroni

Via zoom: Michael Kuiper, Rakesh Garg, Puvanendiran, Cornelia Genbrugge, Raul Sanchez, Barbara Hallman, Sirkku Heinonen

Protocol:

1. **Year 2022:** The TEM events of 2022 were discussed and presented by Markus Skrifvars. The activities including a webinar and Lives 2022 was presented and discussed. Two new sub-group members have been elected MD, PhD Giuseppe Ristagno for the research
2. **Year 2023:** The events that have already taken place and the planned activities of 2023 were presented and discussed.
  - a. A webinar on the intubation of the hemodynamically unstable patient was held in January together with NIC. Three speakers from Finland, UK and Belgium. Plenty of good discussion.
  - b. The program for LIVES 2023 is final and the faculty is being compiled. An effort has been made to have gender as well as geographical balance.
3. Other business:
  - a. Means to activate TEM members
  - b. Possible topics that would interest TEM members
  - c. Studies in the pipeline that would mandate a podcast
    - i. TAME
    - ii. PATCH
  - d. We may need a survey to further get the view of TEM members
    - i. What do we want to hear about?
    - ii. Do we want to do some small research projects?
