

# ESICM TEM SECTION MEETING

**Tuesday 19th March 2024, from 12:15 to 13:15 CEST.**

**ESICM Office (19 Rue Belliard, BE-1040 Brussels).**

**Present (on-site or via Zoom):** Markus Skrifvars, Kevin Roedl, Astrid Hoedermakers, Tommaso Squizzato, Tobias Gauss, Angela Xini, Lina Grauslyte, Andrew Claxton, Ahmed Alsheikhly, Martin Dunser, Barbara Hallman, Elina Ripa, Bruno Megarbane

## **Protocol:**

### **1. Introduction**

Short introduction by all attendants.

### **2. Discussion of previous year's activities 2023**

The activities of 2023 were discussed.

### **3. ESICM LIVES 2024 program**

Markus Skrifvars and Kevin Roedl presented the program outline for ESICM 2024.

### **4. ESICM LIVES 2025 suggestions**

The following suggestions for possible programs for 2025 were presented:

- AI in emergency medicine
- Toxicology including antidotes. This could also be combined with something else
- Critical care outside the ICU
- What can the ED/ICU learn from pre-hospital setting and teams?
- Ultrasound uses in the ED
- One session should be a session on trauma and for the planning of this Tobias Gauss can be consulted concerning both topics and speakers

### **5. ACE Trauma Module needs to be updated**

Lina Grauslyte mentioned the need to update the ACE Trauma module. Tobias Gauss reported that he has compiled a team and the plan is to rewrite the whole module. Lina will send details about the process and requirements to Tobias. Six months is the expected timeline for this. Other TEM members can take part in the process for example as reviewers of the written material.

### **6. Other business**

The TEM is likely to be asked to arrange a Webinar. Possible topics for this could be war medicine or trauma care in general. Martin Dunser suggested "The care for the critically ill patient in the ED", but there will be a debate about this at LIVES 2024.

There is a survey being planned on eCPR by Markus Skrifvars and Kevin Roedl. This can also involve the ELSO network. Markus Skrifvars and Kevin Roedl will liaise with Jan Belohlavek and Fabio Taccone. There was a suggestion to also include the use of uncontrolled organ donation in the survey.

Markus Skrifvars  
Chair of TEM
