

2019 CRRT Master Class

By the ESICM AKI Section

2019 CRRT PG COURSE: Evaluation

- Fully attended
- Feedback:
 - Industry: positive willing to continue to support this format
 - Faculty: positive
 - Participants: very positive, formal feedback to be gathered (survey monkey?)

KEYWORDS

- BASIC
- PRACTICAL
- INTERACTIVE

SIGNING UP

- 50 participants
- Through the ESICM registration system
- Doctors and nurses welcome

STRUCTURE

- Precourse reading and Test
- One day Class
- 50 Participants
- Doctors and nurses

Following the ESICM e- learning RRT module prior to the course is HIGHLY RECOMMENDED

Faculty

- Ten CRRT enthuasists
- All participated to the ESICM meeting

Industry

- Two major CRRT companies
- Provide:
 - one or two demonstration devices
 - a demonstrator for the workshops.
- Demonstrators involved in "machine setup" workshop
- No commercial message allowed.

STRUCTURE

- «Plenary» sessions:
 - Formal Teaching
 - Interactive Cases
- Group sessions (6 groups / 6 machines)
 - Hands-on sessions
 - Workshops

 BACKGROUND
 Introduction and Terminology Principles and Modalities

 HANDS-ON SESSION
 CRRT machines setup

 12:30
 INTERACTIVE PRESENTATIONS

 Vascular Access

12:30

BACKGROUND

HANDS-ON SESSION

INTERACTIVE PRESENTATIONS

Introduction and Terminology Principles and Modalities

CRRT machines setup

How to keep the filter patent?

Vascular Access

09:00		
	BACKGROUND	Introduction and Terminology Principles and Modalities
	HANDS-ON SESSION	CRRT machines setup
12:30	INTERACTIVE PRESENTATIONS	How to keep the filter patent? Vascular Access
13:15	Lunch Break	
	WORKSHOPS	Regional citrate anticoagulation Alarms troubleshooting
	INTERACTIVE CASE PRESENTATIONS	«RRT Timing» and «Other things to worry about when I do CRRT»
	CONCLUSIONS and answers to the test	

Comments

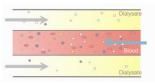

- Multidisciplinarity: doctors and nurses
- Industry involvement

2020 CRRT PG COURSE: Potential improvements

- Contracts with companies need to be done earlier
- Only two companies this year (four last year)
- Overlaps between first two talks

CRRT Master Class

By the ESICM AKI Section

Bruxelles MAsterClass

- 2 days format: 11h to 17h ; 9h to 15h
- Pre-course material sent 1 Mo before including e-learning and references...
- Pre-course AND post course test (evaluation of retention)
- 7 to 10 faculty
- Interactive sessions and plenary sessions
- Implications of CAE (Stefan Monk) for simulations (catheter insertion, pressures simulations...)

- Indications
 - Timing Initiation
 - Ethical issues
 - Termination
 - Transition
- Modality / Dose
 - IRRT vs CRRT vs Hybrid
 - CVVH vs CVVHD vs CVVHDF
 - IRRT: what non nephrologists need to know?
- Circuit: 1
 - Catheter
 - Filter
 - IRRT circuits
- Circuit 2
 - alarms
 - ECMO
- Anticoagulation
 - Citrate
 - Heparin
 - Concept of filtration fraction
 - Clotting vs clogging
 - No anticoagulation
- Quality
 - Specific issues
 - Nutrition
 - Antibimicrobials
 - Hypothermia
 - Electrolytes (hypophosphatemia...) hyponatremia...
 - Locking / tego
 - How to assess quality?
