

MASTER CLASS PROGRAMME

Life-Threatening Emergencies in ICU

Dates: September 11-12, 2018

Location: ESICM Training Centre, Brussels, Belgium

TUESDAY, September 11, 2018

11:30 *Registration*

11:45 Welcome and introduction

12:15 Structured approach to rapidly deteriorating patient

12:30 Non-Technical Skills and Crisis Resource Management

13:10 Introduction to simulated crises: How to enjoy and learn

13:30 Break

13:45 Approach to difficult airways (for groups ACGE) and Extremely difficult-to-ventilate patients: from physiology to bedside (for groups BDFH)

14:15 Rotation break

14:30 Case based discussions/ High fidelity simulation scenarios & Hands-on skill station in 1:4 trainer-trainee ratio

16:00 Break

16:30 Case based discussions/ High fidelity simulation scenarios & Hands-on skill station in 1:4 trainer-trainee ratio

19:00 End

WEDNESDAY, September 12, 2018

8:30 Interactive lectures

- ✓ Difficult airway theory
- ✓ Difficult-to-ventilate patient: applied pathophysiology, step-wise approach

9:00 Case based discussions/ High fidelity simulation scenarios & Hands-on skill station in 1:4 trainer-trainee ratio

11:00 BRUNCH

12:00 Case based discussions/ High fidelity simulation scenarios & Hands-on skill station in 1:4 trainer-trainee ratio

14:00 Debriefing & post-test

15:00 End
