

LIVES FORUM N I C E 6-8 JUNE 2019

AKI AS A SYNDROME

FROM PATHOPHYSIOLOGY TO TREATMENT

This conference aims to deliver most recent practical concepts around AKI syndrome, moving from the management at the acute phase to long-term renal dysfunction.

Suitable not only for physicians and specialists, this 3-day conference offers nurses and other allied healthcare professionals comprehensive training with both foundational lectures and hands-on workshops designed to enhance care at the bedside.
