<b>Scientific focus:</b>	Big Data, Machine Learning
<b>Key words:</b>	Big Data, Machine Learning, Pharmacometrics, Acid-Base, Heart-Lung Interaction, Microcirculation, Regional Circulation

### What else do I want to say?

As a mentor I intend to share my passion for the profession of intensive care medicine and in particular for applied physiology at the bedside. My interests are broad, so we possibilities include general career advice, feedback on your plans, working together on an exciting project or anything in between.
