A. Standard Operating Procedures and Operating Instructions

1. ESICM Standard Operating Procedures

The ESICM has been evolving as a Society since its foundation and the continued development and growth of the Society must be accompanied by changes to the structure of the Society which have implications for the statutes and rules of the society. The fact that the ESICM has become an economically acting body also provides the rationale to divide between the statutes – which form the framework for any activities within the Society - and further operating instructions.

This document contains the general Standard Operating Procedures as defined in the ESICM Statutes. It contains:

- Additional information about the Statutes of the ESICM
- Internal Operating Instructions: describing in detail all the necessary information for the daily work in the Society, including description of committees, positions and procedures.

2. Modifications and Addenda

Changes to this document can only be done through a formal process:

- ESICM officers (see the list below) can suggest changes or modifications to this document, using a formal written proposal to the ESICM Secretary.
 - The Secretary proofs the proposal with respect to form and content and submits the proposal to the Executive Committee.
 - The document has to be reviewed by all voting Executive Committee members for formal and contextual quality.
 - The document has to be reviewed by the Chief Executive Officer, whose feedback should be discussed in the Executive Committee.
 - The Executive Committee has to decide by majority vote about submitting a recommendation to the Council.
 - The Executive Committee presents these at one of the two annual Council meetings. Submission to Council should occur two weeks before the Council meeting. The Council will vote with simple majority about acceptance or rejection of the proposal.
 - The ESICM President is responsible for the release of the document.
 - The ESICM President is responsible for the implementation of the SOPs.
- ESICM officers are:
 - The President
 - The President Elect
 - The Secretary
 - The Treasurer
 - Chairpersons and deputies of Divisions, Committees and Sections.
 - The Chief Executive Officer
 - Other Council members

3. Discontinuation of this document

This document and the inherent instructions can only be discontinued through changes to the ESICM Statutes by majority vote of the General Assembly.

4. Operating Instructions

Besides the general SOPs, there is a need for other Operating Instructions, in order to handle several internal processes.

- Any ESICM officer (see list above) or the Chief Executive Officer can suggest new Operating Instructions or modifications to existing ones, using a formal written proposal to the ESICM Secretary.
- The Secretary proofs the proposal with respect to form and content.
- If the proposal is adequate, the Secretary submits the proposal to the Executive Committee.
- The document has to be reviewed by one additional Executive Committee member for formal and contextual quality.
- The ESICM President is responsible for the release of the document.
- The ESICM Secretary is responsible for the implementation of these Operating Instructions.

3.2 Section Project Groups

1. Purpose

The task of Section Project Groups is to facilitate cross-sectional collaboration on specific named projects within their field of expertise.

3. Creation

Section Project Groups should be cross-sectional - where one Section may take the lead and a proposal should be made to the Chairperson of the lead Section, supported by a minimum of 5 ESICM Ordinary and International members, who are willing to join the SPG. This proposal will then be presented to the Section members. The Section will then decide, either per written vote (fax, letter or email) or during the next Section meeting.

After approval by the Sections, the name(s) of the SPG and the aim of the project(s) will be submitted to the ESICM Division of Scientific Affairs and communicated to the ESICM Secretariat.

Section Project Groups should include a representative from more than one of the Society's Sections, to ensure adequate coordination of activities and dissemination of knowledge in these Sections.

Failure of any elected member (Executive Committee, Council member, Section Chair or Deputy Chair or Sub Committee member) to attend two consecutive meetings should be notified to the President by the Chair of this meeting.

The elected member and President will need to discuss attendance and agree on a plan. Failure to attend three consecutive meetings will result in automatic removal from office, unless either prior agreement has been obtained by the elected member from the President, or if circumstances are agreed by both the Chair and the President to be entirely out of the control of the elected member.

In any case

- The ESICM President may nominate another ESICM officer to temporarily replace the dismissed officer
- The Executive Committee must be informed about this decision
- Within a period of 14 days it must be decided by majority vote within the Executive Committee if:
 - The designated person holds this position until the next scheduled elections for this position or
 - If the vacant position needs to be officially announced and another officer has to be elected as soon as possible. In this case, elections immediately follow the decision.

At the end of an officer's mandate, if, in the event that no candidate has come forward who is willing to stand for election, and a vacancy still remains for a position, a provisional officer/designated person, can be invited to stay on for an interim period of a maximum of one year to assist the Committee. This person would not assume a (formal/official) role on the Council.

The Brussels office will remind all elected members to update their Conflict of Interest forms annually. The Secretary and the President of the Society will review these annually. Members will be reminded immediately after the annual congress.

- The dates of the election are suggested by the ESICM Secretary and are decided on by the Executive Committee.

- Potential candidates must fill in the Application form and send it to the office prior to the set deadline.
- Candidates are responsible for reading and understanding both the prerequisites to stand and the job descriptions.

- Voting members must be informed about the availability of the results.

5.3. Hand-over of mandates

Background

The European Society has various positions to cover where Officers are elected from the Membership. The mandate for these positions varies between two years (President, President Elect) and three years (all others).

It is important that the transition between the different mandate holders occurs in a smooth fashion in order for the Society to operate on the highest possible level. Apart from the President Elect, who has a two-year mandate, no other position has such a transition function built in.

Candidates can only apply for one position in the Society. It is not possible to hold two simultaneous positions within the Society.

To apply for a new position within the Society, a candidate must have fulfilled two thirds of his/her current mandate before the start of the new mandate (i.e. at the time of the handover at the Autumn General Assembly).

Resignation for any reason before completion of a mandate does not permit the person to apply for a new position before the theoretical end of the mandate.

If a person has not concluded two thirds of his/her mandate, he/she is not eligible to apply for a new position within the Society and stand for election.

If successfully elected for a new position, it is assumed that the candidate should stand down from his/her previous position at the General Assembly.

Mandatory Elect

- In the period between election and start of the mandate, each elected representative has the status of a "Mandatory Elect" (ME).
- The transition period is defined as the time from confirmation of election result through to the official handover of posts at the General Assembly.

Rights and Duties of Mandataries Elect

- The ME has the right to participate in any meetings of his/her specific committee which occur in the transition period.
- The ME has the right and the duty to ask and to obtain specific information, necessary for the processing of his/her mandate. He/she should thus be added to the mailing list of his/her specific committee. This right is valid for the whole of the transition period.
- MEs are allowed to participate in ongoing discussions and to express their opinions during the transition period.
- MEs are not allowed to deliver any formal vote.

Rights and Duties of Incumbent Post-holder

- Outgoing office holders have the duty to support their successors during the transition period.
- Outgoing office holders have the duty to include the "ME" in all discussions relating to their mandate in the transition time period.

- For positions within the Executive Committee, a personal meeting between the old and the new office holder is recommended, if suitable.

Mediation

- In case of any conflicts between the incumbent and the succeeding office holder, the Secretary of the Society should be informed.

7.1. Rules of Travel Reimbursement

The ESICM Executive Committee has made the decision to reduce the impact of the travel and accommodation costs on the finances of the Society. The following rules are valid for AUTHORISED travellers who travel on behalf of ESICM, authorised in advance by the Chief Executive Officer /Treasurer. This is travel at the request of the Executive Committee members, to the Brussels Office, or to any other place, including the ESICM Officers.

Eligible for reimbursement by ESICM are:

- Flight costs (economy class)
- Train costs (economy class)
- Car costs (current official Belgian rate of the year)
- Taxi service costs exclusively from home-airport-home and from airport-hotel-airport for an acceptable amount. Long drive costs must be part of the travel costs.
- Taxi costs home-airport-home can be replaced by private car parking costs at the airport at reasonable tariffs
- Accommodation at an acceptable, reasonable rate, bed and breakfast only
- Lunches or dinners, only if related to ESICM business.
- Internet connection if related to ESICM business
- Telephone costs if related to ESICM business.
- Original receipts should be submitted.

Not eligible for reimbursement by ESICM are

- All other costs like bar, mini-bar, lunches or dinners not related to ESICM business.
- The ESICM will only reimburse direct work-related expenses on trips abroad, other expenses are not eligible.

Maximum reimbursable amounts:

The following flight rates are maxima in Euros. Reimbursement will be made on the basis of the real costs paid.

<i>Region</i>	<i>Euro</i>
Europe and Mediterranean Area	600
USA and Central America	900
Canada	900
Israel and non-European Mediterranean Countries	700
Australia and Asia	1400
South America and Central and Sub Saharan Africa	1200

The Executive Committee and the Chief Executive Officer may use business class for long haul flights (transatlantic flights and those of six or more hours). If ESICM officers are travelling on behalf of the ESICM and in the interest of the Society, they should have the prior approval of the Chief Executive Officer and Treasurer for using business class.

If, because of extenuating circumstances, the present guidelines are not adequate to cover an individual's expenses (in case they go over the present maximum), they should send a written request to the Treasurer explaining why they should be allowed to exceed the set ESICM limits and the Treasurer will accept, or reject, the request. A possible example might be an ESICM meeting set up at short notice when an economy fare could not be obtained for less than 500 Euros

Methods

- Reimbursement will be required using the Reimbursement Form provided by the ESICM Accounting Department. This document must be filled in completely including the requested bank data.

- The form must be sent to the Brussels Office Accounting Department by regular post, with the original proofs, receipts and boarding passes attached, within two months after the event. All non-eligible amounts will be deducted.
- Reimbursement will be made by bank transfer as soon as possible.
- The ESICM Treasurer will make a final decision if any dispute arises.

It is strongly advised that all persons travelling on behalf of the Society have adequate personal travel and health insurance cover to cover any unforeseen medical intervention or loss of personal items while abroad.
