### Details on your candidature

I am pleased to submit my application for the position of National Representative to the ESICM. As Director of the Intensive Care Unit at Sancaktepe Prof. Dr. İlhan Varank Education and Research Hospital, I bring a proven background in intensive care leadership, clinical excellence, and medical education — all of which align closely with the responsibilities of this role.

My professional journey began in anesthesiology, where I held several leadership roles before dedicating myself fully to intensive care medicine. Over the years, I have contributed extensively to the training of intensive care and anesthesiology residents, coordinated multidisciplinary education programs in our ICU, and led key quality improvement initiatives. These efforts have strengthened clinical standards and advanced the academic profile of our unit. I remain deeply engaged in both the operational and educational aspects of intensive care, with a strong commitment to collaborative professional development.

In addition to my institutional role, I currently serve as Vice President of the Turkish Society of Intensive Care. This national leadership position allows me to contribute to the development of clinical standards, education, and policy in intensive care across the country. It has also reinforced the importance of international collaboration in advancing our field. As National Representative, I aim to build stronger connections between Turkish intensivists and ESICM, increase participation in European educational and research initiatives, and support alignment with international best practices. I see this role as an opportunity to represent our country's voice within ESICM while fostering growth, engagement, and mutual exchange.

## Financial interests

## Description

I have no financial interests that would present a conflict of interest with the responsibilities of the ESICM National Representative role

## Academic interests

### Description

I am currently involved, in coordination with the Turkish Ministry of Health and other relevant ministries, in promoting intensive care education among medical professionals abroad—particularly focusing on developing and underdeveloped countries. Additionally, I support efforts to enhance information dissemination on organ donation and transplantation in these regions. These initiatives aim to raise awareness and improve critical care practices internationally. They complement my professional responsibilities and do not present any conflict of interest with the duties of the ESICM National Representative.
