## Details on your candidature

Dear members of the NEXT community,

It is with great enthusiasm that present my candidacy for the ESICM-NEXT Committee.

Since the beginning of my career in intensive care medicine, I have been deeply motivated by the values that unite us within NEXT: collaboration, innovation and a shared

commitment to improving the lives of patients and families in the ICU. I strongly believe that young professionals bring not only energy and fresh perspectives, but also a vital responsibility to carry the society's mission into the future.

My background is diverse and multi-national. I am from Romania and I have been living in Madrid, Spain for 15 years. During my training I performed a rotation focusing on artificial intelligence in the ICU in Italy at Humanitas Research Hospital in Milan as well as basic research at the Spanish National Center for Cardiovascular Research in Madrid. I have been an intensive care consultant for two years, with a strong interest in clinical, research and academic activity. I have a deep passion for cardiovascular dynamics, heart lung interactions, innovation, artificial intelligence and environmental sustainability.

I became a member of ESICM in 2018 and elected member of the NEXT Committee since 2023. More recently I served as member of the social media committee, which offered me the opportunity to learn how to effectively communicate and share ideas to healthcare professionals. This experience has shaped both my professional growth and my vision of what our community can achieve together. These opportunities have also shown me the importance of mentorship, teamwork, and creating spaces where every voice can be heard.

As a candidate for the NEXT Committee, my goal is to:

- Strengthen the bridge between young members and the wider ESICM community.
- Promote educational initiatives and mentorship opportunities that empower early-career intensivists.
- Encourage diversity, inclusivity, and international collaboration as key drivers of innovation.
- Contribute with passion, creativity, and commitment to the projects that shape the future of intensive care medicine.

I am convinced that the strength of NEXT ESICM lies in its people— young professionals who dedicate their knowledge, compassion, and vision to advancing intensive care. If elected, I will work tirelessly to represent the interests of my peers and to contribute meaningfully to the mission we all share.

Thank you very much for considering my candidacy. It would be an honour to serve and to contribute, together, to building the future of intensive care medicine.

Yours sincerely,

Ana-Maria
