Comments

Details on your candidature

I am a young specialist in Intensive Care Medicine, trained in Spain, Germany, and Switzerland. This international background has given me broad experience with different healthcare systems and a strong interest in mobility, networking, and European collaboration.

My academic focus is on postgraduate training, simulation in healthcare, and point-of-care ultrasonography (POCUS). I have also been actively involved in teaching, particularly in anaesthesiology and simulation, where I have contributed to workshops and postgraduate training activities. These experiences have reinforced my motivation to develop innovative educational initiatives for young intensivists.

I also bring solid experience in representation and leadership, having served as Chairman of the Students' Council at the Medical Faculty of Hospital de la Santa Creu i Sant Pau in Barcelona, Anaesthesiology Trainees' Representative at Hospital Clínic de Barcelona, and Board Member of the Catalan Society of Anaesthesiology, Resuscitation and Pain Therapy. These roles strengthened my skills in advocacy, teamwork, and communication across professional groups.

Within the NEXT Committee, I would like to:

- Support development of structured curricula in simulation.
- Promote mobility and exchange programs between training centers.
- Strengthen networking and mentorship opportunities for early-career intensivists.

I believe my international training, educational involvement, and representative experience fit well with the goals of the NEXT Committee, and I am eager to contribute to

projects that empower the next generation of intensivists!
