Details on your candidature

Having worked in different countries I believe that I am in position to communicate well with people. Being Greek, discussion in search of "truth" comes naturally. I aim to increase the representation of Greek members in ESICM. Also, I aim to promote the opportunities presented by the Society for collaboration in our field.

I work in an academic department with residents, fellows and medical students for the past 8 years. Recruiting young colleagues in the field of Intensive Care Medicine is one of my goals. I hold the european diploma in transesophageal echocardiography and I

advance the use of ultrasound as a bedside tool in the intensive care unit in every opportunity. Disemination of knowledge is power and allows for better care to our patients. This is what I hope to make more accessible to my fellow Greek Intensivists.
