The Four Working Groups

01 Curriculum & Content

Develop, maintain and continuously improve the GenIUS curriculum and educational content

- → Review and update curriculum and competences
- → Integrate new scientific evidence and guidelines
- → Maintain version control of all materials
- → Promote consistency across national programmes

02 Faculty Development

Develop and support a sustainable, high-performing faculty network

- → Evaluate and validate trainer applications
- → Organise faculty development days
- → Propose national leads per participating country
- → Coordinate GenIUS Faculty Network meetings

03 Quality Assurance & Evaluation

Ensure consistent implementation and promote continuous quality improvement

- → Develop and maintain the QA framework
- → Coordinate Annual Quality Review Visits
- → Monitor programme KPIs and trends
- → Report recommendations to Core Faculty

04 Research & Innovation

Promote research and innovation advancing GenIUS and ultrasound education

- → Develop the GenIUS research strategy
- → Promote collaborative research across countries
- → Support publications and presentations
- → Liaise with ESICM research department
